### Lodi Elementary School and OSC

Hello everyone!

It is hard to believe it has only been a couple weeks since kids came back for Four Full Days of school. The kids, staff, and families have done such a great job with the transition. The main theme I was hearing from kids and staff was happiness. Happiness for kids to be back in school with friends and happiness for teachers and staff to have kids back full days. Thank you for all you have done and will continue to do to support our students through this transition from now until the end of the year.

#### End of Year Activities and Student Transitions

As we near the end of the 2020-2021 school year, we are still looking to have transition activities but they will be different or modified versions of what they have been in the past.

- 5th graders will be meeting with Ms. Baxter, Middle School Social Worker for Question and Answer Sessions
- LES/OSC will be making welcome videos for incoming 3rd graders

#### End of Year Reminders

## School Social Worker Highlights

### School Value Survey

Hello families,

I am Mikaela Lee, the school Social Worker at Lodi Elementary and OSC. It has been a joy being here this year and getting to know your kids better.

Here at LES/OSC, we intentionally connected with staff and parent representatives to identify the values we hope to promote within the school. The values that resonated most were: Belonging, Supportive, Kindness, Growth, and Safety.

As we move forward to establish these values, we would like to know how you feel we are currently promoting these values. This will help us identify areas for growth moving forward.

To help support this effort a parent survey will be coming home with your child to ask about school culture. It is also available online [here](#). This survey asks how well the school is doing with promoting the values of belonging, kindness, growth, safety and creating a supportive environment. If you wish you can also put your contact information down on the survey so that we can learn a little more about how you feel we are doing in these areas. The goal of this survey is to better understand how we are doing with cultivating these values in our community and learning what areas we need to take a better look at.

Sincerely,

Mikaela Lee
