Lodi Elementary School and OSC

Blended Model

As many of you know the Board of Education of the School District of Lodi voted to bring back kids to some form of in person instruction beginning Tuesday, Jan 19, 2021. Prior to that decision there were many things that we were doing to get ready for some kind of in person return to school. They included getting the school building ready for social distancing in the hallways, classrooms, and bathroom, and working with staff on instructional delivery when kids would be in person and some kids would choose to remain online. We continue to plan for our ½ day model where kids will come in the AM or PM on Mon, Tues, Thurs, and Fri. The graphic below gives you a little more detail. During the month of December, you will receive updates about start and end times for school, supply lists for kids returning to school, and more information on details for online learning for those who picked that model.

Mental Health

At this time of year many people become more aware of theirs and others mental health. As we deal with surges in COVID cases and temperatures drop, which forces us to abandon some of the social outlets we have been developing since March the visual below is a good reminder of how you can support a child's mental health.

How to nurture a child's mental health
